## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 9/4/08 have been fully considered but they are not persuasive.

The remarks of Office Action mailed 3/5/08 are incorporated herein.

Applicant argues that reference to the specification of the lost count is improper.

However the specification is only referenced to show that the subject matter of the lost count inherently teaches the claimed invention.

Additionally, applicant argues that the specification does not set forth the specific conditions necessary for heat-treating to cause the formation of an oxyfluoride film each and every time and therefore does not demonstrate that the limitations present in the instant application are inherently present in the subject matter of the lost count.

However it appears that the present invention describes the formation of the oxyfluoride compound in a similar manner as that of the specification of the lost count. Therefore, it appears that the instant application does not provide any further guidance than the specification of the lost count regarding the formation of the oxyfluoride compound. Thus, it appears that the specification recitation referenced in the prior action illustrates that the subject matter of the lost count produces the oxyfluoride film in a similar manner as the specification of the instant invention.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 40-62 are rejected under 35 U.S.C. 102(g) over the sole lost count of Patent Interference No. 105,406.

Claims 40-62 correspond to the subject matter of the sole count of Patent Interference No. 105,406, as to which a judgment adverse to the applicant has been rendered. A losing party is barred on the merits from seeking a claim that would have been anticipated or rendered obvious by the subject matter of the lost count. *In re Deckler*, 977 F.2d 1449, 24 USPQ2d 1448 (Fed. Cir. 1992); *Ex parte Tytgat*, 225 USPQ 907 (Bd. Pat. App. & Inter. 1985). See also MPEP §2308.03.

In this instance, because claims 40-62 are not patentably distinct from the subject matter of the sole count, the claims stand rejected as estopped on the merits by the applicant's loss in the interference. The subject matter of claims 40-62 is generic to the subject matter of the lost count. As per Example 2 in MPEP §2308.03, since the generic claim encompasses subject matter lost in the interference, the generic claim must be rejected as estopped on the merits by the loss in the interference.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
